

JOINT FIBER GLASS TAPE

Seamless Strength. Lasting Finish.

Engineered for excellence, our Joint Fiber Glass Tape is designed to deliver crack resistance, superior bonding, and dimensional stability for all your wall and ceiling joint applications. Perfect for use as a reinforcement material in gypsum plaster, concrete applications & water proofing.

Key Benefits

Anti-crack Performance
Prevents cracks at joints between block/ concrete and seams by reinforcing weak spots.

Alkali-resistant Coating
Enhanced durability against moisture and chemical exposure.

Lightweight & Easy to Apply
Cuts labor time with quick and easy installation.

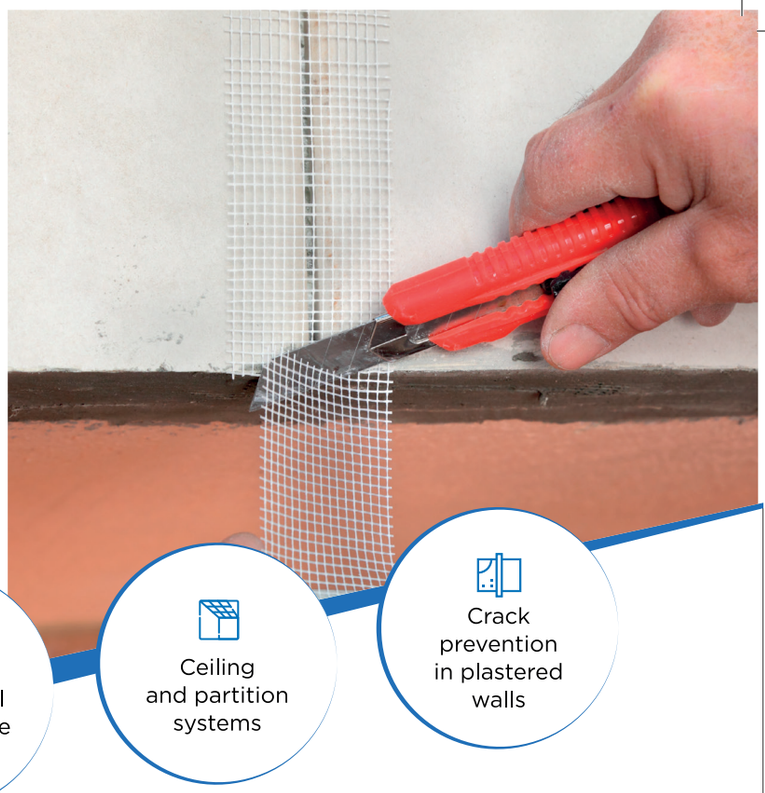

Superior Bonding with Plaster/Putty
Ensures a long-lasting, smooth finish.

Highly Flexible
Adapts easily to corners and curves without compromising strength.

Shrink & Deformation Resistant
Retains shape under stress or environmental changes.

Available in 100mm & 142mm Width | 50 Meters Roll – 145 GSM

Interior & exterior wall joints surface finishing

Ceiling and partition systems

Crack prevention in plastered walls

Applications

Joint reinforcement in Gypsum plaster, concrete applications & water proofing.

Chemical Characteristics

Properties Name	Properties Value
Class	E
Coating	Alkali Resistant

Tensile Strength

Properties Name	Properties Value
Tensile strength in standard conditions wrag/wet (N/5 cm)	1500

Other Parameters

Properties Name	Properties Value
Temperature Resistance	500° C
Emulsion Content	14+5%
Moisture Content	<-0.6%

Technical Specifications

Property	Specification
Material	Woven Fibre Glass
Coating	Alkali-Resistant Polymer
Widths Available	100mm x 142mm
Roll Length	50 meters
Mesh Size	5 mm x 5 mm (standard)
GSM	145 GSM
Color	White

Available Sizes

- 4 Inches (100mm) x 50 Meters Roll
- 6 Inches (142mm) x 50 Meters Roll
